Dear Dr. Nghiem:

Thanks for taking the time to write and let me know about USA Wireless' recent measures to ensure quality service, performance, and consumer safety. I very much appreciate learning about the specific steps that your company is taking in this regard.

As you may know, your efforts parallel those of this Administration to streamline the way government operates and to improve telecommunications accessibility and service to our citizens. Your insights are valuable as we continue to work to implement the necessary reforms we have identified and those still to be developed. I hope you will not hesitate to pass along any additional ideas, suggestions, or comments that you might have along those lines.

Again, thanks for your commitment to excellence.

Sincerely,

Al Gore
